630 US GALLONS

MULTICUBE

U.S. Only Product

NON-HAZMAT DIESEL FUEL TRAILER

The MultiCube is a diesel fuel trailer that does not require Hazmat placarding, and in most cases CDL, thanks to its multi-tank design. The six independently isolated fuel tanks are housed within an outer tank that provides double-walled containment. The MultiCube offers convenience and security for your fueling needs.

BENEFITS

NON-HAZMAT
Transport diesel safely without the need for hazmat placarding.

110% CONTAINED
(6) 105 US gallon fuel tanks housed within an outer tank, providing double-walled containment.

MOBILE
13-foot trailer allows for maneuverability and easy refueling in hard-to-reach locations.

TURNKEY
Pre-configured, pre-installed accessory packages designed for your applications.

SECURE
Lockable design ensures your diesel and equipment are safe and secure.

GUARANTEED
8-year tank warranty. 1-year trailer warranty. We've got you covered.
